the approval of the Court, after submitting a detailed proposal in response to a request for proposal received from Lead Counsel Entwistle & Cappucci LLP (“Entwistle and Cappucci”) and Saxena White P.A. (“Saxena White”). A.B. Data’s proposal included information on its proposed pricing for the engagement, including its per-claim fees for claims processing and per-unit fees for others costs such as printing notice postcards, postage, telephone, and website services. A.B. Data has experience working with Entwistle & Cappucci and Saxena White in successfully implementing notification and claims administration programs in other class actions. *See, In re Dynagas LNG Partners LP Securities Litigation*, No. 19-cv-04512 (AJN) (S.D.N.Y.); *Judith Godinez v. Alere Inc., et al.*, Civil Action No. 1:16-cv-10766-PBS (D. Mass.); *City of Hollywood Police Officers’ Retirement System, et al. v. 4. A.B. Data has numerous control systems and procedures in place to ensure the secure handling of class members’ data that we believe meet or exceed relevant industry standards. A.B. Data accepts responsibility for security of Claimants’ data; accurate calculation of Claimants’ claims pursuant to the Court-approved Plan of Allocation, subject to guidance received from Lead Counsel; and accurate distribution of funds pursuant to a Class Distribution Order to be entered by the Court. A.B. Data maintains adequate insurance in case of errors, which includes (a) professional liability errors and omissions insurance coverage; (b) a fidelity bond for employee dishonesty losses (plus additional computer fraud and wire transfer communication fraud coverages); and (c) network and information security liability coverage.

5. A.B. Data affirms that data provided to it by Revance Therapeutics, Inc. (“Revance”), brokers and nominees, and Claimants for the purposes of providing notice and administering the Settlement will be used solely for those purposes.

Proposed Plan for Disseminating Notice of the Settlement to the Settlement Class

6. The proposed notice plan for the Settlement in this matter uses customary procedures that have been widely adopted in securities class action cases and which have been designed to provide direct mail notification to all investors who are members of the Settlement Class and who can be identified with reasonable effort, as well as additional notice through publication in relevant financial publications, newswires, and over the internet.

7. As set forth in the proposed Order Preliminarily Approving Settlement and Providing for Notice (the “Preliminary Approval Order”), no later than twenty (20) calendar days after entry of the Order (which date shall be the “Notice Date”), A.B. Data will mail, or email, to the extent email addresses are made available, the Postcard Notice to all Settlement Class Members who can be identified with reasonable effort.

8. In accordance with the Order, Revance shall provide or cause to be provided to A.B. Data in electronic format records reasonably available to Revance or its transfer agent (consisting of names, mailing addresses, and, if available, email addresses) of the record purchasers of Revance securities during the Settlement Class Period. This information will be kept confidential and not used for any purpose other than to provide notice of the Settlement.

9. Additionally, as in most class actions of this nature, the large majority of Settlement Class Members will be beneficial owners who hold their securities in “street name,” *i.e.*, the securities are purchased by banks, brokers, and other nominees (“Nominees”) in the name of the Nominee on behalf of the beneficial owner.² Accordingly, to effectuate notice to the majority of

² As stated by the U.S. Securities and Exchange Commission (“SEC”), “[a]pproximately 85% of exchange-traded securities are held by securities intermediaries, such as broker-dealers and banks, on behalf of themselves or their customers.” *See*

the Class, A.B. Data will mail a Postcard Notice to its list of the largest and most common Nominees who may have purchased Revance securities for the beneficial ownership of other persons and entities.³

10. The Notice will inform Nominees that if they purchased or otherwise acquired Revance securities during the Settlement Class Period for the benefit of another person or entity they must: (a) within seven (7) calendar days of receipt of the Postcard Notice, request from A.B. Data sufficient copies of the Postcard Notice to forward to all such beneficial owners and within seven (7) calendar days of receipt of those Postcard Notices forward them to all such beneficial owners; or (b) request from A.B. Data a link to the Notice and Claim Form and, within seven (7) calendar days of receipt of the link, email the link to all such beneficial owner for whom valid email addresses are available; or (c) within seven (7) calendar days of receipt of the Postcard Notice, send a list of the names and addresses of all such beneficial owners to A.B. Data, after which A.B. Data will promptly mail the Postcard Notice to such beneficial owners. Upon full compliance with these directions, such nominees may seek reimbursement of their reasonable expenses actually incurred up to a maximum of \$0.03 per name and address provided, up to \$0.03 per Postcard Notice actually mailed plus postage at the rate used by A.B. Data, or up to \$0.03 per link to the Notice and Claim Form transmitted by email, by providing A.B. Data with proper documentation supporting the expenses for which reimbursement is sought.

11. A.B. Data will also submit the Notice to the Depository Trust Company (“DTC”) to post on the DTC Legal Notice System (“LENS”). LENS enables DTC member banks and

³ Currently, A.B. Data’s list of Nominees contains approximately 4,892 Nominees. This list is continually monitored and updated as Nominees change addresses, merge, go out of business, and/or come into existence.

brokers to review the Notice and contact A.B. Data directly to obtain copies of the Postcard Notice for their clients who may be potential Settlement Class Members.

12. As requests for notice are received, A.B. Data will mail Postcard Notices (in bulk) to Nominees, or directly mail or email the Postcard Notice to potential Settlement Class Members identified by Nominees. A.B. Data will also disseminate the Postcard Notice to any other persons or entities requesting them or other points of contact for potential Settlement Class Members as appropriate. Any notices that are returned as undeliverable will be reviewed to determine if an alternative or updated address is available from the U.S. Postal Service or through a third-party vendor to which A.B. Data subscribes and will be re-mailed to the updated or alternative address, if available.

13. To supplement direct mailed or emailed notice to potential Settlement Class Members, A.B. Data will cause the Summary Notice to be published in *The Wall Street Journal* and be transmitted over *PR Newswire* no later than ten (10) calendar days after the Notice Date.

14. Simultaneously with the initial mailing of the Postcard Notice, A.B. Data will establish a settlement-specific website, www.RevanceSecuritiesSettlement.com (“Settlement Website”), where Settlement Class Members can access and download copies of the Notice, the Claim Form, the Stipulation, and other documents related to the Settlement.

15. A toll-free telephone number, 1-877-507-1390, and dedicated email address, info@RevanceSecuritiesSettlement.com, will also be established and staffed with customer service representatives trained to answer questions about the Settlement. Both the toll-free telephone number and dedicated email address will be displayed, in multiple places, in the notices and Claim Form and on the Settlement Website.

16. In A.B. Data’s opinion, the proposed notice plan provides, the best notice

practicable under the circumstances, is consistent with the requirements of Rule 23 and the Private Securities Litigation Reform Act, 15 U.S.C. §78u-4 (the “PSLRA”), and is consistent with other similar court-approved security class action notice programs. *See, e.g., Padilla v. Community Health Systems, Inc.*, Case No. 3:19-cv-00461 (M.D. Tenn.) (approving postcard notice program).

**Information on Settlement Administration, Estimated Class Size,
and Number of Potential Claims**

17. In developing the proposed notice plan for the Settlement, A.B. Data was asked to provide a rough estimate of the number of potential Settlement Class Members and, relatedly, the number of Postcard Notices to be mailed or emailed. As noted above, the majority of potential Settlement Class Members for any securities class action are beneficial owners who hold their securities in “street name.” Because of this street name system, even corporate entities often do not know the identity of the vast majority of their shareholders. Thus, in estimating class size for any securities case, A.B. Data uses historical settlement data from other securities class action settlements that A.B. Data has administered, particularly those settlements of similar size and/or involving companies with similar market capitalization and numbers of shareholders. Based on the trading volume of Revance Securities during the Settlement Class Period, A.B. Data estimates that it will mail and/or email approximately 140,000 copies of the Postcard Notice to potential Settlement Class Members and nominees.⁴

18. Settlement Class Members who wish to become potentially eligible to receive a distribution from the Settlement will be required to complete and submit to A.B. Data a properly executed Claim either by mail or online through the Settlement Website such that it is postmarked

⁴ To be clear, the number of Settlement Class Members will be a subset of the number of Postcard Notices sent. Not every person or entity that receives a Postcard Notice will be a Settlement Class Member.

(if mailed) or received no later than the claims-submission deadline established by the Court, together with adequate supporting documentation for the transactions and holdings in Revance Securities reported therein.

19. Each Claim received by A.B. Data will be reviewed upon receipt to verify that all required information has been provided. The documentation provided with each Claim will be reviewed for authenticity and compared to the information provided in the Claim to verify the Claimant's identity and the purchase/acquisition, sale, and holding information. A.B. Data will process each Claim in accordance with the Court-approved plan of allocation using the loss calculation module developed for the Settlement.

20. If a Claim is determined to be defective, a deficiency notification will be sent to the Claimant, via letter or email, describing the deficiency in the Claim including, where applicable, what is necessary to cure the deficiency. The deficiency notification will also advise Claimants how much time they have to submit the appropriate information and/or documentary evidence to complete/cure their Claim. If the deficiency in the Claim is not cured, the Claim will be recommended for rejection (in whole or in part). The deficiency notification will also advise Claimants of their right to contest A.B. Data's administrative determination with respect to their Claim and to request Court review of their Claim.

21. After the Claims (and responses to deficiency notifications) have been fully processed, quality assurance reviews performed, and final administrative determinations have been made as to which Claims are valid, A.B. Data will present its administrative report on the Claims received for the Settlement to the Court, along with a proposed plan for distribution. Thereafter, upon Court approval, A.B. Data will distribute the net Settlement proceeds to eligible Settlement Class Members *pro rata* based on each Claim's recognized loss amount as calculated pursuant to

the Court-approved plan of allocation, the total recognized losses of all eligible Claims, and the amount available for distribution.

22. Distributions from the net Settlement proceeds will be sent to eligible Settlement Class Members via check or wire with, in the case of check payments, a specified period for each Claimant to cash their payment (typically 90 or 120 days).⁵ For any checks that are not cashed, A.B. Data will conduct an outreach campaign to encourage cashing and to provide Claimants with reissued checks where applicable.

23. The procedure described above is the standard claims administration process for all securities class action settlements handled by A.B. Data.

Estimated Administration Costs

24. Based on A.B. Data's experience with securities settlements with similar numbers of shareholders, we estimate that administering the settlement notice, claims processing, and settlement distribution aspects of this proposed settlement will generate professional services fees and expenses ranging from approximately \$225,000 to approximately \$240,000, as well as approximately \$70,000 in expected fees charged by Nominees for providing names and addresses of potential Settlement Class Members or for forwarding the Postcard Notice to their clients. Utilizing electronic mail where appropriate and disseminating a postcard notice rather than notice packets containing a long-form notice substantially reduces administrative costs without negatively impacting effectiveness.

⁵ Due to the expenses associated with administering claims, A.B. Data recommends that no distributions be made to Claimants who would receive less than \$10. These expenses include the costs of printing and mailing a check, as well as monitoring whether the check has been cashed, all of which could easily exceed the value of such smaller claims. It is standard practice in securities class actions to utilize a minimum check threshold, and it is commonplace to use \$10 as the minimum amount.

25. Accordingly, A.B. Data estimates that the total Notice and Administration Costs will range from approximately \$295,000 to approximately \$310,000 which is less than 1.8% of the proposed Settlement Amount. This percentage is reasonable in relation to the value of the Settlement and is consistent with or below the administration costs incurred in other securities class action settlements. In A.B. Data's experience, the notice process, claims process, and estimated fees and expenses outlined above are reasonable in relation to the value of the settlement, and consistent with or below those incurred in other securities settlements of similar size and complexity.

26. The foregoing amounts are estimates and the ultimate cost of this administration could change if the number of Postcard Notices mailed is substantially greater (or smaller) than A.B. Data's estimate or if the number of Claims received is substantially greater (or smaller) than the estimate. In addition, the costs of this administration could be impacted by any out-of-scope work encountered during the course of the administration. A.B. Data will always strive to keep costs down whenever possible.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 19th day of March 2026.

All Digital — From Notice to Distribution

A.B. Data is uniquely positioned to design, implement, and maintain notice and settlement administration programs using an innovative, "all-digital" approach that replaces the more traditional and less efficient methods of administration, such as newspaper ads, mailed notices, and paper checks. Many of our recent proposed notice plans and claim programs utilize the latest technologies such as microtargeted digital ads for notice, streamlined online claims, and distributing settlement funds electronically using a digital paywall. These methods provide significant cost savings, are consistent with the amendments to Rule 23 that are now in effect, and importantly provide much-needed alignment of class action notice and administration with current consumer behaviors.

From there, we assist with fully interactive media packages for court presentations and settlement negotiations. A.B. Data works closely with our clients, offering expert testimony on documents, processing, class and notice manageability, and proposed plans of allocation.

Media Services

A.B. Data continues to earn our reputation as the early innovator in integrating advanced micro-targeting techniques, including contextual targeting, behavioral targeting, and predictive modeling. Our compliance and understanding of Rule 23 of the Federal Rules of Civil Procedure are crucial in meeting the "plain language" legal requirements for any campaign. From our sophisticated digital media capabilities and extensive global experience with class member research, our experts create notice documents that are easily understandable and cost-efficient to produce. We consult with our clients to deliver notice documents from multi-page, mailed, or emailed notice packets to concise postcards that establish the most influential and cost-effective means of communicating with potential claimants.

Our Contact Center and case websites are capable of handling millions of class member engagements, as recently displayed in a campaign which garnered over 1.2 million website visits in two months and had more than 72,500 Facebook engagements. Eric Nordskog, Director of Client Services, started with A.B. Data in 2012 on the operations team, managing dozens of team leads and claims administrators in the administration of legal cases and actions. In 2017, Mr. Nordskog was promoted to Project Manager, due in part to his proven ability to add consistency and efficiency to the e-claim filing process with new streamlined processes and audit practices. Today, as Senior Project Manager, he directs many of A.B. Data's securities, insurance, and consumer cases. He regularly oversees the administration of large insurance cases, such as two recent Cigna Insurance matters that involved complex calculations and over one million class members each. He is also the primary hiring and training manager for new project managers and coordinators. Mr. Nordskog earned his Juris Doctor degree from Marquette University Law School, Milwaukee, in 2001.

Eric Schultz, MCSE, Information Technology Manager and Security Team Chairperson, has been with A.B. Data for more than 19 years, and is currently responsible for overseeing all information technology areas for all A.B. Data divisions across the United States and abroad, including network infrastructure and architecture, IT operations, data security, disaster recovery, and all physical, logical, data, and information systems security reviews and audits required by our clients or otherwise. As a Microsoft Certified Systems Engineer (MCSE) with more than 25 years of experience in information

technology systems and solutions, Mr. Schultz has developed specializations in network security, infrastructure, design/architecture, telephony, and high-availability network systems.

Secure Environment

A.B. Data's facilities provide the highest level of security and customization of security procedures, including:

- A Secure Sockets Layer server
- Video monitoring
- Limited physical access to production facilities
- Lockdown mode when checks are printed
- Background checks of key employees completed prior to hire
- Frequency of police patrol – every two hours, with response time of five or fewer minutes
- Disaster recovery plan available upon request

Data Security

A.B. Data is committed to protecting the confidentiality, integrity, and availability of personal identifying information and other information it collects from our clients, investors, and class members and requires that its employees, subcontractors, consultants, service providers, and other persons and entities it retains to assist in distributions do the same. A.B. Data has developed an Information Security Policy, a suite of policies and procedures intended to cover all information security issues and bases for A.B. Data, and all of its divisions, departments, employees, vendors, and clients. A.B. Data has also recently taken the necessary, affirmative steps toward compliance with the EU's General Data Protection Regulation and the California Consumer Privacy Act.

A.B. Data has a number of high-profile clients, including the Securities and Exchange Commission (SEC), the United States Department of Justice, the Attorneys General of nearly all 50 states, other agencies of the United States government, and the Government of Israel, as well as direct banking and payment services companies with some of the most recognized brands in United States financial services and some of the largest credit card issuers in the world.

We are therefore frequently subjected to physical, logical, data, and information systems security reviews and audits. We have been compliant with our clients' security standards and have also been determined to be compliant with ISO/IEC 27001/2 and Payment Card Industry (PCI) data-security standards, the Gramm-Leach-Bliley Act (GLB) of 1999, the National Association of Insurance Commissioners (NAIC) Regulations, the Health Insurance Portability and Accountability Act (HIPAA) of 1996, and the Health Information Technology for Economic and Clinical Health Act (HITECH).

The Government of Israel has determined that A.B. Data is compliant with its rigorous security standards in connection with its work on Project HEART (Holocaust Era Asset Restitution Taskforce).

A.B. Data's fund distribution team has been audited by EisnerAmper LLP and was found compliant with class action industry standards and within 99% accuracy. EisnerAmper LLP is a full-service advisory and accounting firm and is ranked the 15th-largest accounting firm in the United States.

In addition, as part of PCI compliance requirements, A.B. Data has multiple network scans and audits from third-party companies, such as SecurityMetrics and 403 Labs, and is determined to be compliant with each of them.

Fraud Prevention and Detection

A.B. Data is at the forefront of class action fraud prevention.

A.B. Data maintains and utilizes comprehensive proprietary databases and procedures to detect fraud and prevent payment of allegedly fraudulent claims.

We review and analyze various filing patterns across all existing cases and claims. Potential fraudulent filers are reported to our clients as well as to the appropriate governmental agencies where applicable.
